DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 4-15, 18-27 and 29-34 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior arts Finke-Anlauff (6,850,226) fails to recite or disclose the uniquely distinct features, the apparatus for use in a data processing device comprising the cursor control device comprising a directional pad configured to direct a cursor in specified directions responsive to a user input; wherein the directional pad comprises: a button shell having an exterior surface and an interior surface; an actuator platform coupled to the button shell, the actuator platform pivoting around a pivot point; and one or more switches interfacing with one or more points on the actuator platform, the switches communicatively coupled to generate control signals responsive to physical user input on the button shell as claimed in Claims 1, and 15.

The prior arts Finke-Anlauff (6,850,226) fails to recite or disclose the uniquely distinct features, the apparatus for use in a data processing device wherein the audio system further comprises: an audio receiver fixedly attached to an inside surface of the cursor control device, the audio receiver having a speaker for generating the audio responsive to the audio signals; and a first air chamber adjacent to the audio receiver, the first air chamber positioned behind the speaker within the audio receiver as claimed in Claim 29.

The closest prior art, Finke-Anlauff (6,850,226), either singularly or in combination, fail to anticipate or render the above bold and underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
